# ABOUT THE COMPANY

M4Y (Made for You) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At M4Y, we believe that service and quality is the key to success. Founded and Funded by graphic designers from Jahirathu Junction, M4Y has now set a new path towards Digital Solutions

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Services Provided by M4Y group Pvt Ltd:

Development - We develop responsive, functional and super-fast websites. We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

# OVERVIEW OF THE PROJECT

**Project Name:** MADE FOR YOU

**Team Members:** SUSHMA K.M (4VV18IS109)

DHANUSHREE K.T (4GW18IS015)

FARHANA (4GW18IS016)

FATHIMA SAIREEN (4GW18IS017)

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS JavaScript, PHP, and MY SQL. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

This webpage is about “MADE FOR YOU”

# ABOUT M4Y

We are the leading project maker who make best project for school and college students, we not just provides you the project but also a full in detailed project report and best support to our students, we make leading science fair and educational projects for you. Buy the best projects from best project maker.

Project Creator Create Any Project Quickly and Easily Organize projects, tasks and teams Plan, track and report work No limit to how many projects you can make Project Maker without Hassles Create, measure and report on your projects from start to finish with our project creator software. Our powerful suite of features gives you every tool you need to make your next project a success. Plan on Gantt charts, view real-time data with dashboards and report on progress with one-click reporting tools.

Award-Winning Project Creator Tools and Integrations Multiple Project Views Work the way you want and choose the project view that fits your work style.

- Collaborative Platform Keep teams connected and commenting in real time at the task level
- Stay Updated Email and in-app notifications alert you to any changes, updates or assignments.
- Import and Export Import Excel and MPP files to start new projects, then export them to share with stakeholders.
- Detailed Reports Generate in-depth reports on project status and more, then filter to get specific insights.
- Balance Workload Check the color-coded workload chart to ensure that their work is evenly distributed.
- Timesheets Track your team's logged hours with timesheets that can be locked when approved for security.
- Live Dashboards instantly get a high-level view of your project with our real-time dashboards.

Convert More Viewers into Customers with Studio-Quality Video Animations Created In Under 2 Minutes with Our User-Friendly Software. Video editing software can be used to create a digital

video on a non-linear device after output. It has substituted conventional tools and digital video editors for glossy film editing. Many video editing applications have common features, such as automatic video reformats, thousands of free video clips, cloud storage, etc. Format your videos instantly Helps you customize the curve Enhance your editing framework Boost audio mixing Immerse yourself in all the techniques you need to create an online story.

This software offers advanced editing methods and much more, control over your footage, including key framing. Allows you to speed up graphical activities such as rendering and exporting in real-time. It also permits the use of Apple's digital content and packages with gift cards. Sync up to 64 video angles for different formats instantly. Final Cut Pro provides an interactive, intuitive collection of closed-format captions. It speeds up graphics tasks significantly, including rendering and exporting in real-time. Final Cut Pro lets you speed up post-production activities. Attach your 360 ° video 2D and 3D titles, and apply blurs, lighting, or other effects of 360 °. The all-new Mac Pro is streamlined! Speeds up post-production work. can make adjustments to the video easily with this program. You can cuts clips, add transactions, rotate, etc. Any video scene can be named It offers a single timeframe for video editing. Informational GUI offers. Video effects may be applied. You can make a video.

# TOOLS USED

## Software Requirements:

- ❖ Visual Studio Code 2019
- ❖ Google Chrome
- ❖ Front End: HTML, CSS, JavaScript
- ❖ Back End: PHP, MY SQL
- ❖ Windows XP/7/8/10 OS

## Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

# ABOUT MY TEAM

We are four in a team, Sushma K M from vidyavardhaka college of engineering and Dhanushree.K.T, Farhana, Fathima Saireen from GSSS Institute of engineering technology for women.

Everybody involved in the project. All coding part was done by Sushma and rest of the people sended the content and did the report part.
